

## Look and Listen activity

Look and Listen activities can be used to support children's attention, engagement, turn-taking skills, listening and requesting and responding.

These sessions can be either a few minutes long or longer dependent on your child.

Collect a range of motivating items in a container and explore them one at a time with your child.

These items may include:

- Bubbles
- Balloons
- Cause and effect toys
- Wind-up toys
- Spinners

Use keywords while exploring the item to encourage your child to copy you.
